PUBLICATION

Kaveh Abhari, **Monjima Lahiri**, Sumanth Paila. Generative AI User Experience Design: Introducing the FAIR Principles for Ensuring Interactional Integrity | *Submitted to International Conference on Information Systems*, 2025.

ACHIEVEMENT

Winner at DesignVerse 2025, University of California, Riverside — My team (of 2 people) ended up winning in two of the 8 categories! We won the "Deep Sea Research track" for our extensive focus on user research and the "Best.tech domain name" (ecohood.tech). Our project was a local sustainability connector app that connects neighborhoods to eco-initiatives and encourages hyperlocal environmental action and community empowerment.
